In addition, equipment must comply with the generally accepted minimum protective criteria standards and engineering requirements of the telecommunications industry which are not barred by the Federal Communications Commission.

SECTION 2 - RULES AND REGULATIONS, (Cont'd.)**2.9 Installation**

No installation of the Company's services at the Customer's Premises is required to use the Company's service. Service is initiated by request of the Customer. The Company may refuse to provision service when the Company cannot verify that the party requesting the Company's service is authorized to request or to change service.

2.10 Payment for Service

2.10.1 Service is provided and billed on a monthly basis. Bills are due and payable upon receipt. Late payment fees for Customers who have their charges billed by an affiliated local exchange company will be the late payment fee applied by the affiliated local exchange company to overdue charges. Customers that are not billed by an affiliated local exchange company may be charged a late payment fee of 1.5% per month, or the maximum amount allowed by law, whichever is lower. The late payment fee will apply to any overdue charges and will begin to accrue no sooner than the 25th day after the billing date or as allowed by law. In the event that the Company incurs fees or expenses, including attorney's fees, collecting, or attempting to collect, any charges owed to the Company, the Company may charge the Customer, and the Customer will pay, all such fees and expenses reasonably incurred. Collection fees on overdue charges apply in addition to all applicable late payment charges and shall begin to accrue when the Account is assigned to an outside collection agency.

2.10.2 The Customer is responsible for payment of all charges for service furnished to or used by the Customer, or the Customer's agents, servants, employees or customers. The Customer is also responsible for payment of charges for all other third person's use of service to which the Customer subscribes. All charges due from the Customer are payable to the Company or to the Company's authorized billing agent in immediately available U.S. dollars. Any objections to billed charges should be reported to the Company or its billing agent within thirty days after receipt of the bill. If objection in writing is not received by the Company within the applicable statute of limitations after the bill is rendered, the Account shall be deemed correct and binding upon the Subscriber.

2.10.3 The security of the Customer's Authorization Codes is the responsibility of the Customer. All calls placed using such Authorization Codes shall be billed to and shall be the obligation of the Customer. The Customer is responsible for all calls placed via the Customer's Authorization Code, whether such use is as a result of the Customer's intentional or negligent disclosure of the Authorization Code or otherwise. However, the Customer shall not be responsible for charges in connection with the unauthorized use of Authorization Codes arising after the Customer notifies the Company of the loss, theft, or other breach of security of such Authorization Codes.

SECTION 2 - RULES AND REGULATIONS, (Cont'd.)**2.10 Payment for Service, (Cont'd.)**

2.10.4 The Company reserves the right to assess a charge not to exceed the maximum amount determined by applicable state law, whenever a check or June 1, 2001 presented for payment of service is not accepted by the institution upon which it is written.

2.10.5 The Customer shall be responsible for payment of rates and charges for all calls placed by or through Customer's equipment by any person. In particular and without limitation to the foregoing, the Customer is responsible for payment of rates and charges for any calls placed by or through the Customer's equipment via any remote access features. The Customer is responsible for all calls placed via their Authorization Code, whether such use is as a result of the Customer's intentional or negligent disclosure of the Authorization Code or otherwise.

2.10.6 The Company reserves the right to examine the credit record or other available external sources of credit of an applicant or Customer. The Customer whose service has been disconnected for nonpayment of bills shall be required to pay any unpaid balance due to the Company before service is restored, and a deposit may be required.

2.10.7 The Company shall make no refund of overpayment by the Customer unless the claim for such overpayment, together with proper evidence, is submitted within two years of the date of alleged overpayment. In calculating refunds, any applicable discounts shall be adjusted based upon the actual monthly usage after all credits and adjustments have been applied.

2.10.8 Duplicate Bill Charge

A Residential Customer who requests a reprint of their monthly long distance bill that is older than six months and whose long distance charges are billed by an affiliated local exchange company will be assessed the charge applied by the affiliated local exchange company.

SECTION 2 - RULES AND REGULATIONS, (Cont'd.)**2.11 Deposits**

- 2.11.1** The Company reserves the right to examine the credit record of the Customer, using any lawful sources for determining credit standing. If the Customer's financial condition is unknown or unacceptable to the Company, the Customer may be required to provide the Company with a security deposit which the Company may apply against overdue charges. The amount of the security deposit shall be no more than two month's estimated usage but may vary downward based on the Customer's credit history and projected usage. The Customer shall be apprised that after one year of service the Account shall be reviewed, and in the event that all amounts due have been paid within the terms and conditions of this tariff, the deposit shall be refunded in full. If subsequent payment or usage patterns change, the Company may request an increase in or resubmission of the security deposit as appropriate. The Company may also require a security deposit before service is restored (along with the payment of overdue charges) from the Customer whose service has been discontinued for nonpayment of overdue charges. Such security deposit may be based on a new credit history (taking into account the discontinuance of service) and estimates of usage. Interest at the rate prescribed by SCPSC per annum is allowed to the Customer during the continuance of the deposit, payable as follows: on demand of the depositor at any time, but not more than once a year, upon application of depositor for discontinuance of service, or, at the end of each five year period if request for payment of interest or discontinuance of service has not been previously made. If held until discontinuance of service, such deposit and accrued interest, less any amounts due the Company, is upon such discontinuance returnable to the Customer.
- 2.11.2** The fact that a security deposit has been made in no way relieves the Customer from the prompt payment of bills upon presentation.

SECTION 2 - RULES AND REGULATIONS, (Cont'd.)**2.12 Advance Payments**

The Company reserves the right to require an advance payment, in advance installation, from the Customer instead of, or in addition to, a security deposit. The advance payment shall be in an amount equal to, or less than, estimated nonrecurring charges associated with service installation.

2.13 Interruption of Service

2.13.1 Credit allowances for interruptions of service which are not due to the Company's testing or adjusting, to the negligence or other wrongful act or omission of the Customer, or to the failure of services, channels, equipment and/or communications systems provided by the Customer or Customer's agents, servants, employees, or customers, are subject to the general liability provisions set forth in this tariff. It shall be the obligation of the Customer to notify the Company immediately of any interruption in service for which a credit allowance is desired by the Customer. Before giving such notice, the Customer shall ascertain that the trouble is not within his or her control, or is not in wiring or equipment, if any, furnished by the Customer. Interruptions caused by Customer-provided, or Company-provided automatic dialing equipment are not deemed an interruption of service as defined herein since the Customer has the option of using the long distance network via dial access code.

2.13.2 For purposes of credit computation, every month shall be considered to have 30 days and every day 24 hours. For all Company services no credit shall be allowed for an interruption of continuous duration of less than twenty-four hours. For services billed on a usage basis, credits will be limited to, at maximum, the price of the call that was in progress at the time of the service interruption.

For services billed on a monthly basis, credit is computed by multiplying the monthly recurring rate by the ratio that the number of hours in the period of interruption bears to 720 hours (30 days times 24 hours). The credit shall be based upon the non-usage charges for the month during which the interruption occurred, excluding equipment and access line charges.

2.13.3 An interruption is measured from the time the Customer notifies the Company of the interruption until the trouble is cleared. Each interruption is considered separately for the purposes of establishing credit allowance. Unless otherwise specified in this tariff, the credit for a billing period shall not exceed the monthly rate.

SECTION 2 - RULES AND REGULATIONS, (Cont'd.)**2.14 Discontinuance and Restoration of Service**

Service continues to be provided until canceled by the Customer or until canceled by the Company as set forth below. The Company may render bills subsequent to the termination of service for charges incurred before termination. The Customer shall pay such bills in full in accordance with the payment terms of this tariff.

- 2.14.1** Service may be suspended by the Company, without notice to the Customer, by blocking traffic to certain cities or NXX exchanges, when the Company deems it necessary to take such action to prevent unlawful use of its service. VLD will restore services as soon as it can be provided without undue risk. (D)

2.14.2 Cancellation by the Customer

The Customer may have service discontinued upon written or verbal notice to the Company. The Customer shall pay the Company for service furnished until the cancellation date specified by the Customer or until the date that the written cancellation notice is received, whichever is later.

2.14.3 Refusal, Suspension or Cancellation by the Company

- A. For nonpayment: The Company, by written notice to the Customer and in accordance with applicable law, may refuse, suspend or cancel service or cancel an application for service without incurring any liability when there is an unpaid balance for service that is more than 30 days overdue. Cancellation of service for nonpayment is subject to early termination liability obligations set forth in this tariff.
- B. For returned checks: The Customer whose check or June 1, 2001 is returned unpaid for any reason, after two attempts at collection, and if the bill is more than 30 days past due, shall be subject to refusal, suspension or cancellation of service in the same manner as provided for nonpayment of overdue charges.

SECTION 2 - RULES AND REGULATIONS, (Cont'd.)**2.14 Discontinuance and Restoration of Service, (Cont'd.)****2.14.3 Refusal, Suspension or Cancellation by the Company, (Cont'd.)**

- C. For Lack of Use: The Company, by written notice to the Customer, may refuse, suspend or cancel service in the same manner as provided for nonpayment of overdue charges if after reasonable inquiry, and reasonable attempt to contact the Customer, the Company determines that the service has been abandoned.
- D. For unauthorized or unlawful use of service: Except as provided elsewhere in this tariff, the Company may refuse, suspend or cancel service, without notice, for any unauthorized or unlawful use of the Company's service.
- E. For the Company to comply with any order or request of any governmental authority having jurisdiction: The Company may refuse, suspend or cancel service, without notice, in order to permit the Company to comply with any order or request of any governmental authority having jurisdiction.
- F. For unauthorized or unlawful use of Authorization Codes: Authorization Codes are issued by the Company only to the Customer and may not be sold or otherwise distributed without the written consent of the Company. Any unauthorized or unlawful use of such Authorization Codes shall result in the immediate refusal, suspension or cancellation of service without notice. (D)
(T)

SECTION 2 - RULES AND REGULATIONS, (Cont'd.)**2.14 Discontinuance and Restoration of Service, (Cont'd.)****2.14.4 Notice of Discontinuance**

The Company may refuse or discontinue service under the following conditions provided that, unless otherwise stated in this tariff, the Customer shall be given reasonable notice, to comply with any rule or remedy any deficiency:

- A. For non-compliance with or violation of any State, municipal, or Federal law, ordinance or regulation pertaining to telephone service.
- B. For use of telephone service for any purpose other than that described in the application.
- C. For neglect or refusal to provide reasonable access to the Company or its agents for the purpose of inspection and maintenance of equipment owned by the Company or its agents.
- D. For noncompliance with or violation of Commission regulation or the Company's rules and regulations on file with the Commission, provided five (5) working days' written notice is given before termination.
- E. For nonpayment of bills, provided that suspension or termination of service shall not be made without five (5) days written notice to the Customer, except in cases of extreme risk involving excessive or abnormal use of toll service, in which case service may be denied two days after written notice is given to the Customer unless satisfactory arrangements for payment are made. Such notice will be provided in a mailing separate from the customer's regular monthly bill for service. Service will be terminated only on Monday through Thursday between the hours of 8:00 AM and 4:00 PM, unless provisions have been made to have someone available to accept payment and reconnect service.

SECTION 2 - RULES AND REGULATIONS, (Cont'd.)**2.14 Discontinuance and Restoration of Service, (Cont'd.)****2.14.4 Notice of Discontinuance, (Cont'd.)**

- F. Without notice in the event of Customer or Authorized User use of equipment in such a manner as to adversely affect the Company's equipment or service to others.
- G. Without notice in the event of tampering with the equipment or services owned by the Company or its agents when such tampering is determined by the Company to impose a hazard or impairment of service to other Customers.
- H. Without notice in the event of unauthorized or fraudulent use of service. Whenever service is discontinued for fraudulent use of service, the Company may, before restoring service, require the Customer to make, at his or her own expense, all changes in facilities or equipment necessary to eliminate illegal use and to pay an amount reasonably estimated as the loss in revenues resulting from such fraudulent use.

2.14.5 Restoration of Service

If service has been refused, suspended or canceled for nonpayment or as otherwise provided herein and the Customer wishes it continued, service shall, at the Company's discretion, be restored when all past due amounts are paid or the event giving rise to the refusal, suspension or cancellation (if other than nonpayment) is corrected.

2.14.6 Use and Restoration in Emergencies

The use and restoration of service in emergencies shall in all cases be subject to the priority system specified in Part 64, Subpart D of Chapter 47 of the Code of Federal Regulations.

SECTION 2 - RULES AND REGULATIONS, (Cont'd.)**2.15 Application for Service**

The Company reserves the right to require Customers to make application(s) for service in writing using forms provided by the Company. Upon acceptance of an application for service by the Company, all applicable provisions in the Company's tariffs, as amended from time-to-time which are lawfully on file, become the agreement for service between the Company and the Customer. Requests for additional service and changes to service, upon acceptance by the Company, become a part of the agreement for service provided that each item of additional service shall be subject to the applicable minimum term of service. Acceptance or use of service offered by the Company shall be deemed an application for such service and an agreement by the Customer to subscribe to, use, and pay for such service in accordance with the applicable tariffs of the Company, as amended from time to time, which are lawfully on file. Any change in rates or other tariff provisions which are lawfully made and for which required Notice has been given shall be deemed to modify all agreements for service affected by such changes without further notice by Company to the Customer. Customer provision of false information, or a failure by the Customer to provide material information, in an application for service, (either written or verbal) shall be deemed an attempt to avoid payment or to otherwise defraud the Company. In such instances, the Company may terminate, suspend, or refuse service in accordance with this tariff without further obligation or liability to the Customer.

2.16 Interconnection

2.16.1 Service furnished by the Company may be interconnected with services or facilities of other authorized communications common carriers and with private systems, subject to technical limitations established by the Company. Service furnished by the Company is not part of a joint undertaking with such other common carriers or systems. The Company does not undertake to provide any special facilities, equipment, or services to enable the Customer to interconnect the facilities or the equipment of the Company with services or facilities of other common carriers or with private systems. Customer is responsible for all charges billed by other carriers in connection with the use of service. Any special equipment or facilities necessary to achieve compatibility between carriers are the sole responsibility of the Customer.

2.16.2 Interconnection with the services or facilities of other common carriers shall be under the applicable terms and conditions of this tariff and the other common carrier's tariffs.

SECTION 2 - RULES AND REGULATIONS, (Cont'd.)**2.16 Interconnection, (Cont'd.)**

2.16.3 The Customer shall ensure that the facilities or equipment provided by the Customer are properly interconnected with the services, facilities and equipment of the Company and its suppliers. If the Customer maintains or operates the interconnected services, facilities or equipment in a manner which results or may result in harm to the Company's facilities, equipment, personnel, or the quality of service, the Company may, upon written notice, require the use of protective equipment at the Customer's expense. If this written notice fails to eliminate the actual or potential harm, the Company may, upon written notice, terminate the existing service of the Customer.

2.17 Inspection, Testing and Adjustment

Upon reasonable notice, the facilities provided by the Company and its suppliers shall be made available to the Company for such inspection, tests and adjustments as may be deemed necessary for maintenance in a condition satisfactory to the Company. No interruption allowance will be granted for the time during which such tests and adjustments are made.

2.18 Local Charges and Wireless Air Time Charges

In certain instances, the Customer may be subject to local exchange company charges including, but not limited to, message unit charges or wireless air time charges to access the Company's network or to terminate intrastate calls. The Company shall not be responsible for any such local charges incurred by the Customer in gaining access to the Company's network.

2.19 Tests, Pilots, Promotional Campaigns and Contests

The Company may conduct special tests, pilot programs, waivers and promotions to demonstrate the ease of use, quality of service and to promote the sale of its services.

SECTION 2 - RULES AND REGULATIONS, (Cont'd.)**2.20 Marketing**

As a telephone utility under the regulation of the Public Service Commission of South Carolina, the Company does hereby assert and affirm that as a reseller of intrastate telecommunications service, the Company will not indulge or participate in deceptive or misleading telecommunications marketing practices to the detriment of consumers in South Carolina, and the Company will comply with those marketing procedures, if any, set forth by the Public Service Commission. Additionally, [the Company] will be responsible for the marketing practices of its contracted telemarketers for compliance with this provision. The Company understands that violation of this provision could result in a rule to Show Cause as to the withdrawal of its certification to complete intrastate telecommunications traffic within the state of South Carolina.

2.22 Other Rules

2.22.1 The Company reserves the right to validate the credit worthiness of Customers through available verification procedures. Where a calling card code cannot be validated, the Customer may be required to provide an acceptable alternate billing method or the Company may refuse to place the call. (T)

2.22.2 The Company reserves the right to discontinue service, limit service or to impose requirements on Customers as required to meet changing regulations, rules or standards of the Commission.

2.22.3 For demonstration or promotional purposes, services offered to Residential Customers may be provided on a temporary basis over telephone lines designated with a Business class of service or installed in business locations.

2.22.4 Demonstration or promotional calls of up to 10 minutes may be offered to existing or prospective Customers to demonstrate new services at no charge to the Customer. Such offerings will be limited to specific locations and dates and may include originating and/or terminating restrictions.

SECTION 3 - DESCRIPTION OF SERVICE AND RATES**3.1 General**

- 3.1.1** The Company provides telecommunications services between locations within the State of South Carolina. The Company's service charges are based upon call duration, time of day rate period, mileage, and/or call type.
- 3.1.2** Presubscribed service is offered from locations served with equal access end offices.
- 3.1.3** Intrastate service is offered as an add-on to interstate service.
- 3.1.4** The Company's service is available twenty-four hours per day, seven days a week, except as otherwise provided in the Company's tariffs.
- 3.1.5** Due to billing system limitations, where noted in this tariff, certain billing differences may exist based on the specific system utilized for developing and rendering the Customer's bill.
- 3.1.6** From time to time, the Company may offer complimentary limited use phone cards (total value not to exceed \$100) to potential Customers who respond to, or are targeted by advertising or marketing campaigns. The Company may also offer complimentary limited use phone cards to existing or returning Customers as an incentive to retain such Customers. The limited use phone card allows users to originate outbound, direct dialed domestic long distance calls via a toll free access number. All calls are rounded to the next higher full minute or unit. The limited use phone card shall expire on the date specified on the card, or in the absence of a physical card, on the date specified on the marketing material accompanying the complimentary calling service offer.

SECTION 3 - DESCRIPTION OF SERVICE AND RATES, (Cont'd.)**3.2 Calculation of Distance**

Usage charges for all mileage sensitive services are based on the airline distance between the rate center locations associated with the originating and terminating points of the call.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the applicable rate centers as defined by Telecordia Technologies (formerly Bellcore), in the following manner:

Step 1 - Obtain the "V" and "H" coordinates for the rate center of the originating and the destination points.

Step 2 - Obtain the difference between the "V" coordinates of each of the rate centers. Obtain the difference between the "H" coordinates.

Step 3 - Square the differences obtained in Step 2.

Step 4 - Add the squares of the "V" difference and "H" difference obtained in Step 3.

Step 5 - Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.

Step 6 - Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating rate centers of the call.

Formula:

$$\sqrt{\frac{(v_1 - v_2)^2 + (h_1 - h_2)^2}{10}}$$

SECTION 3 - DESCRIPTION OF SERVICE AND RATES, (Cont'd.)**3.3 Timing of Calls**

Billing for calls placed over the network is based in part on the duration of the call.

- 3.3.1** Timing for all calls begins when the called party answers the call (i.e. when two way communications are established.) Answer detection is based on standard industry answer detection methods, including hardware and software answer detection.
- 3.3.2** Chargeable time for all station-to-station calls begins when connection is established between calling party and the called party and ends when the calling party hangs up thereby releasing the network connection. If the called party hangs up but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the network, or by an operator.
- 3.3.3** Minimum call duration for billing purposes is one minute unless otherwise specified in the individual rate schedules of this tariff.
- 3.3.4** Calls are measured and billed in one minute increments on a per call basis, unless otherwise indicated in this tariff. Fractional billing increments are rounded to the full billing increment as stated in the product description.
- 3.3.5** There is no billing applied for incomplete calls. An incomplete call is a station call in which the called station does not answer, or a person-to-person call in which the station does not answer or the requested person is unavailable, or a collect call for which the called party refuses to accept the charges.
- 3.3.6** Usage charges are computed on a per call basis. When computation of call charges result in fractional cents, the resulting charge is rounded to the nearest penny.

Operator Services allow Customers and Consumers to place calls using operator assistance for call completion or billing.

Usage charges and an appropriate service charge will be assessed on a per call basis, as stated in this tariff. For calls made using a telephone company card, acceptance of the card will be dependent upon the Company's ability to verify the card as valid. Only those cards accepted by the Company may be used for Operator Services. The Company reserves the right to verify acceptance of charge prior to billing charges to a third party number.

- 4.4.1** Operator services may be used by a Customer and by an Aggregator and their respective Consumers (i.e., patrons, guests, invitees or employees) to complete Operator Station, Person-to-Person, Collect, Third-Party, and/or Calling Card calls.

SECTION 4 - MISCELLANEOUS SERVICES, (Cont'd.)**4.4 Operator Services, (Cont'd.)**

The Company shall restore service as soon as it can be provided without undue risk, and shall, upon request by the Customer affected, assign a new Authorization Code to replace the one that has been deactivated. The Company reserves the right to validate the credit worthiness of Customers through available Calling Card, called number, Third Party telephone number and room number verification procedures. SECTION 4 - MISCELLANEOUS SERVICES, (Cont'd.)**4.6 Pay Telephone Surcharge**

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all interstate, intrastate and international calls that originate from any domestic pay telephone used to access the Company's services, unless otherwise specified in this tariff. The Pay Telephone Surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with the Company's service, applies for the use of the instrument used to access the Company service and is unrelated to the Company's service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the "#" symbol).

Whenever possible, the Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information that the originating station is an eligible pay telephone.

SECTION 5 -OBSOLETE SERVICE OFFERINGS

Services in this section are available only to existing Customers at existing locations, unless otherwise indicated in the service descriptions in this Section. Customers who are disconnected from an obsolete/grandfathered plan as a result of non-payment may lose their eligibility to be restored to the obsolete/grandfathered plan.

SECTION 5 -OBSOLETE SERVICE OFFERINGS, (Cont'd.)**5.1 Business/Residence Line Toll Free Service**

Business/Residence Line Toll Free Service provides for the termination of inbound toll-free calls to one-party exchange access lines. The minimum service period for Business/Residence Line Toll Free Service is one day.

5.1.1 Toll Free Number Assignment

Toll Free Number Assignment provides for the assignment of a single ten digit toll free number (i.e. 800-XXX-XXXX). Toll Free Number Service allows for but does not require the Toll Free Service Customer to use one toll free number. Toll Free Number Service can be selected for an area by specifying the desired area of service, as described in 5.1.1 following. The assigned toll free number will terminate to an exchange access line.

5.1.2 Area of Service

Area of Service defines the geographic location from which the Toll Free Number Service customer desires to accept calls for a given Toll Free number. An exchange access line is required for termination of Toll Free Number Service traffic. The desired Area of Service must be specified by Customer at the time Business/Residence Line Toll Free Service is ordered.

5.1.3 Variable Call Destination

The Variable Call Destination feature provides for multiple terminations of Business/Residence Line Toll Free Service when Customer specifies an Area of Service. This allows for the assignment of one toll free number with termination to an exchange access line.

SECTION 5 -OBSOLETE SERVICE OFFERINGS, (Cont'd.)**5.1 Business/Residence Line Toll Free Service, (Cont'd.)****5.1.4 Determining Usage Charges**

Monthly usage charges are calculated separately for each exchange access line termination. There is a minimum usage charge based on the average completed call of 30 seconds per completed call for each billing period for each rate period. Therefore, if the average duration of all such calls is less than 30 seconds, the total use equals the number of calls multiplied by 30 seconds. Usage charges apply as follows:

- A. For each exchange access line termination of a given toll free number, the total chargeable hours for each rate period for each termination is the greater of (1) or (2) following, rounded up to the nearest tenth.
 - (1) Determine the total actual Business/Residence Line Toll Free Service hours associated with a given toll free number and exchange access line for each rate period (chargeable time for each call) or;
 - (2) Determine the total equivalent hours associated with a given toll free number for the exchange access line termination used for each rate period by applying the minimum average time requirement of 30 seconds per call (1 call X 30 seconds).
- B. Using the total chargeable hours per rate period determined in 1. preceding and the table of hourly rates, multiply the hourly rates(s) in the appropriate usage tier by the number of hours used in each usage tier. The total charge is the sum of all the usage.
- C. The charges for a fractional part of a month will be a proportionate part of the monthly recurring charge based on the actual number of days service is provided, plus the usage charges applicable for that month. Every month is considered to have 30 days.
